John & Emily-

Attached are the invitation letters, schedule and PDM descriptions for the 2017 ***Making STEM REAL-Rivers to the Bay*** Professional Development Opportunity for teachers.

Since QACPS holds the grant funds for this program and the MSP grant includes both private and public schools in Queen Anne's County, Michael Page, Science Supervisor is copied on this email.

Please extend the invitation to ALL High School Math, Science & Social Studies teachers--and anyone else you feel would be interested in or uniquely qualified for this experience.

You are welcome to join in as you are able!

This year, there is room for 1 teacher from Gunston.

The program's professional development activities are grant funded and pay for teacher stipends and substitute teachers.

The R2B – Year 5 – Making STEM REAL professional development begins with **an orientation on Thursday, March 9, 2017 in Litrenta Hall, from 5:00-6:00, at Washington College**. This is an approved Professional Development program that involves 75 contact hours and offers **3 MSDE** credits upon completion and submission of assignments.

It is a great PD--inspiring confidence and comfort in teaching outside and with NGSS Inquiry strategies!

Please send this out to your teachers promptly, as it is time sensitive.

Thanks for all your support of CES & R2B, and E-Lit!!

Jemima

Jemima,

Thanks for the invite. Ken Wilson (Science Dept Chair and Physics teacher) will be our participant for the year. His email is [kwilson@gunston.org](mailto:kwilson@gunston.org)

Best,  
Emily
